

Jobmatch

Jobmatch is a free, specialised employment service which assists people with disabilities or barriers to find employment opportunities in the open labour market.

Jobmatch was established in 1992 for jobseekers who wanted to overcome the barriers of disability, make use of their skills and abilities in the workforce and earn at least award-based wages.

Jobmatch has developed strong links with employers, both large companies and small businesses, who share the commitment to achieving success by matching the skills of the person to the requirements of the job.

Jobmatch clients work in many fields including administration, customer service, hospitality, retail, manufacturing and warehousing, travel and information technology. Jobs held by clients range from entry level to professional positions. Jobmatch support also includes career development which assists clients to gain new skills, wider experience and promotions.
