# macarthur case management

The Macarthur Case Management Service aims to assist families to access the resources their child requires in order to meet their specific needs. Families of children with all types of disabilities are able to access the service providing they are not receiving similar case management already.

The service is available in the Macarthur area. It is staffed by case managers and has access to therapy services. The case management team and the family work together to identify and meet the child's needs. This can be done in many different ways. Sometimes Macarthur Case Management staff can provide the skills required, sometimes they may need to find another provider. At times the program may be able to provide financial support for services that need to be paid for. At other times, staff may speak on the family's behalf or support their request for access to other programs and resources.

## Access

Families can access the service themselves or may be referred by another agency or organisation, so long as the family consents to the referral.

## Eligibility

- Families who live in the Macarthur Local Government Area
- Families who have a child or young person in the 0-18 years age bracket with a disability.
- Families with complex or ongoing needs
- Families who are not receiving case management support from other services, including Department of Ageing, Disability and Home Care or other case management services.

## Geographical area

Campbelltown, Camden and Wollondilly.

## Funding

The program is jointly-funded by the Department of Ageing, Disability and Home Care and Northcott Disability Services.
